(C1)

a keyboard for input of character or symbol data into said data processor;  
a note code table to correspond the inputted character or symbol data input into said data processor with character or symbol data and scales of music staff notation;  
a note decoder to decode the inputted character or symbol data to corresponded to scale code data using said note code table;  
a note code storage device to store output data from said note decoder in order as music staff notation data; and  
an outputting means for outputting the music staff notation data from the note code storage device.

---

B2

6. (ONCE AMENDED) A data processor, comprising:  
a note code table to correlate non-music staff character or symbol data input into the data processor with scales of music staff notation;  
a note decoder to convert input data to scale code data using said note code table;  
an output unit to output the converted input data.
